

D2 Solid Surface Wash Trough Data Sheet - Deck Mounted Taps

Our thermoformed solid surface wash trough is fully compliant with the Department of Education's School Output Specification for Sanitaryware. Manufactured from a single piece of solid surface and thermoformed into a seamless, curved shape, there are reduced hard edges and joints that trap dirt, making it more hygienic and easier to clean.

- ✓ DfE fully compliant education wash trough available in 22 colours from Corian and HIMACS
- ✓ Manufactured from non-porous and waterproof solid surface material
- ✓ Thermoformed wash trough with coved edges for improved hygiene and easy cleaning
- ✓ 400mm bed depth to comply with DfE specification
- ✓ Fully concealed pipework via removable panel, manufactured from SGL which is impervious to water and extremely durable with anti-tamper fixings
- ✓ Removable panel available in 34 colours to coordinate with other areas of the washroom
- ✓ Wall-mounted installation to comply with DfE specification
- ✓ Fire resistant to UK BS476 Class 0
- ✓ Available in various lengths to suit individual project requirements
