

SanCeram Corian Education Wash Trough - D4

Description:

Our SanCeram thermoformed solid surface wash trough meets all the requirements of the Department of Education's School Output Specification for Sanitaryware.

Made from a single piece of solid surface and thermoformed into a smooth, seamless curve, it eliminates sharp edges and joints that can collect dirt, ensuring superior hygiene and ease of cleaning.

Features:

- Education wash trough fully compliant with DfE standards – meeting the strictest standards for hygiene and durability
- Constructed from a non-porous, waterproof Corian solid surface
- Thermoformed design with coved edges for enhanced hygiene and easy cleaning
- Built out upstand for wall mounted taps
- 400mm bed depth, adhering to DfE specification
- Wall-mounted installation in line with DfE requirements
- Supplied in Corian Glacier White
- Fire resistant to UK BS476 Class 0
- Available in various lengths
